

x-net wall mounting control 230V

Description

- Room temperature regulator with thermal feedback
- Direct wall mounting (surface installation) or mounting on electrical installation flush-mounted box possible
- Nominal value setting by handwheel with numbers 1 to 5 (equates to approx. 5°C to 30°C)

Technical data

Control range:	5 to 30°C
Permissible rel. room humidity:	Max. 95%, non-condensing
Storage temperature:	-20 to +70°C
Switching contact:	NC contact
Control function:	Heating
Operating voltage:	230V AC, 50/60Hz
Switching current:	10mA to 10 (4) A
Switching capacity:	2.5kW
Hysteresis:	Approx. 0.5K
Protection type:	IP30
Protection class:	II
Sensor element:	Bimetallic
Thermal feedback:	Yes
Dimensions H x W x D:	84 mm x 84 mm x 27.5 mm

Product code

Kermi x-net wall mounting control 230V
